### FOUR BEDROOM FAMILY HOME

This four bedroom family home has just been freshly painted through out with light neutral tones.

The large home offers plenty of space for the whole family.

Sit back on the front veranda and enjoy the well established gardens.

The living room has large window fronts allowing the all day sun to shine through, there are two heating options in the living room with one being a wood heater and the other a reverse cycle heat pump.

Walk through the living room into the kitchen, dining and possible extra sitting area or home office space where you will also find another reverse cycle heat pump.

The well appointed kitchen has ample storage space.

All four bedrooms are a generous size with one of the bedrooms having built in robes.

The good sized family bathroom has a separate shower and bath.

Step out to the back yard and you will enjoy the beautiful fruit trees when they are in season, there is a concreted back patio which would make a great space for an outdoor dining table, the yard is level and will be a great place for children to play.

**Date Available**  
now

**Inspections**  
Inspections are by appointment only
